RESEARCH

Evolution of the share of public health expenditures in the budget of the Ministère de la Santé et des Services Sociaux between 2004 and 2019

This report by Roxane Borgès Da Silva, Alexandre Prud'homme, Pierre-Jacques Deblois, Jean-François Labadie and Erin C. Strumpf analyzes the evolution of MSSS expenditures by program in current dollars, constant dollars and according to a minimum required level of expenditure increase based on the consumer price index specific to health and personal care over the period 2004 to 2019, with a particular focus on the public health program. The results show uneven growth in spending across the different MSSS programs over this period.

External Activity : Reflection on public finances

 Wednesday, June 2, 2021

Demographic transition, climate challenge, effects of the COVID-19 crisis: are federal, Quebec and local government finances sustainable in the long term? What can we learn from them? What are the challenges to be met in order for them to be sustainable? These are some of the questions that will be addressed by the speakers during this virtual day of reflection organized by the Chaire en fiscalité et en finances publiques (CFPP), in collaboration with the Association de planification fiscale et financière (APFF) and the Ordre des CPA du Québec. CIRANO is a diffusion partner of this event.
